CUSTOMISATION IN ITS BONES

The Shotgun 650 defies categorisation in both spirit and form. Its modular design enables it to switch between three modes—from single seater to double seater to luggage-carrying tourer—with ease. Each of its four unique colourways draws from the culture of customisation, offering a canvas for self-expression for builders and beginners.

FROM DOWNTOWN TO OUT OF TOWN

The Shotgun 650 is ergonomically optimised, with mid-set foot pegs, a low 795mm seat height and handlebars that are intuitively placed to work with the seat and footpeg position. Its tuned Showa suspension, 1465mm wheelbase and low centre of gravity come together to make riding in traffic, on highways and down twisty back roads equally fun, without compromising on comfort. Wide 18" front and 17" rear tubeless tyres, combined with 320mm and 300mm disc brakes, ensure a steady grip and ample control at all speeds, whether you're riding solo or with extra weight.

PURE MOTORCYCLING DNA, UNLEASHED.

Under the unshakable steel spine of the Shotgun 650 pounds our proven 648cc parallel twin engine, which is designed for real world usage with a strong mid-range and ample torque across the gears to keep the rider engaged. It's a motorcycle that carries our pure motorcycling DNA, without being constrained by it, using its modular capabilities, neo-modern aesthetic and unique colours to break the mould and push the boundaries of what a Royal Enfield can be.
