CRUISING AT ITS PUREST

Super METEOR 650

The Super Meteor 650 is the definitive cruiser, engineered using sixty years of cruising experience. Unlike other machines, it doesn't lug around a load of unusable features. It brings with it only what the open road calls for: A proven 648CC parallel twin engine. An ultra-comfortable riding stance. And dollops of torque. It's a motorcycle that has been built on one fundamental belief: that the greatest journeys cannot be limited to hours or kilometres.

650CC PARALLEL TWIN

648CC. 47PS of Power. 52.3 Nm of torque.
At the core of the Super Meteor 650 is our iconic parallel twin engine, which offers seamless gear transitions, strong low-end acceleration and an effortless throttle response.

A new cylinder head mount gives high torsional stiffness, making your riding experience smooth, steady and responsive, at both low and high speeds.

CHASSIS

The Super Meteor 650 sits on an all-new frame that's been sculpted around its twin engine, ensuring nimbleness and ease of handling while adding to its quintessential cruiser form. A tubular spine frame, relaxed riding stance and low center of gravity give you every bit of the solidity and stability you need, whether you're cruising down the highway or navigating a busy street.

ROYAL ENFIELD

LED HEADLAMPS

An all-new headlamp combines old-school aesthetics with modern LED lights to reduce power usage while increasing visibility, no matter where you're headed.

ROYAL ENFIELD

USD SUSPENSION

Upside-down forks on the front suspension give you complete confidence and control on open highways, crowded streets and everything in between.

ROYAL ENFIELD

LOW SLUNG SEAT

A low-set, wide seat and a laid back riding stance make cruising a comfortable experience, no matter how many kilometers are behind you and how many lie ahead.
