HIMALAYAN 440

RETURN OF THE DECADE

A decade ago, the Himalayas inspired a motorcycle that went on to inspire thousands of adventures. Purpose-built to flow with the terrain, not conquer it. Ten years on, it returns with an upgraded heart, but with the same unchanged DNA. Function over frills. Capability before complexity. Character above all.

LONG-STROKE. LONG PULL. LONG HAUL.

Enough power to climb. Enough torque to crawl. The Himalayan's upgraded 443cc long-stroke engine comes with 25.4 bhp of power and 34 Nm of torque. Paired with a six-speed gearbox, it delivers effortlessly across the rev range, while the additional gear lets you make quick work of highways.

KING OF SPARTA

Half-duplex, split-cradle frame. Low centre of gravity. Torture-tested suspension. Proven performance. On rock. Road. Slush. River. Snow. And everything in between.

ENGINE

The 443cc long-stroke engine delivers a powerful 34 Nm of torque, making light work of steep climbs, rough roads and everything in between.

SEAT HEIGHT

An accessible 800mm seat height makes the Himalayan easy to handle, and keeps every rider comfortable and stable on any terrain.

NEW LED HEADLIGHT

A new LED headlight sheds more light on the night so you can ride with confidence and spot bends, bumps and obstacles well in advance.

ADVANCED BRAKING SYSTEM

All-new ByBre brakes give you total control through tight turns, steep descents and shifting terrain.

BUILT TO FLOW

The unmistakable silhouette of the original Himalayan returns on the 440, alongside a special 10-year anniversary badge commemorating its iconic predecessor.
