

ROYAL ENFIELD

STAY WILD
STAY CLASSIC

Royal Enfield
GOAN

Chopped-up fenders.
Raised ape-style handlebars.
And a dazzling kaleidoscope of colours.
The Goan Classic 350. Stay Wild. Stay Classic.

TRIPPING SINCE 1970

Inspired by the stripped-down and tripped-up creations of Goa's custom builders, the Goan Classic 350 takes the spirit of a bobber and injects it with chopped-up fenders, white-wall tyres and a kaleidoscopic explosion of colours—this is the Classic like you've never seen it before.

SUSEGAD ON TWO WHEELS

From beach to beach, shack to shack and back. The ergonomics of the Goan Classic 350 channel the easygoing energy and custom culture that inspired it. A low-slung seat, laidback stance pairs with raised ape-style handlebars and perfectly-positioned footpegs for a relaxed and comfortable riding experience that fits right in with the land of susegad.

GOOD VIBES ONLY

The Goan Classic 350 is made for riders who never rush a good thing. Powered by our tried-and-true 349cc J-engine, it delivers smooth, steady power at every RPM and 27 Nm of torque that lets you ride easy and soak up the sun, kilometre after kilometre.

FEATURES

Every inch of the Goan Classic 350 channels the easygoing energy of the era that inspired it, from its tried-and-true J-platform engine to its ape-style handlebars and '70s-inspired colour palette.

APE-STYLE HANDLEBARS

Mid-ape handlebars offer riders a characterful stance with an upright riding posture, while simultaneously reducing strain on the upper body and making even long rides comfortable.

LOW-SLUNG SEAT

The low-slung, bobber-style seat ensures relaxed ergonomics and enhanced comfort, whether you're going for a short spin or a long trip.

EDGE-LACED ALLOY SPOKE WHEELS AND WHITEWALL TUBELESS TYRES

The Goan Classic 350's edge-laced aluminium spoke wheels and retro-styled tubeless tyres offer a dash of old-school, while reducing the risk of punctures and ensuring easy repairs.

ALL-LED LIGHTING

The signature Classic casquette headlamp returns with an LED upgrade, alongside LED turn indicators, offering powerful illumination and enhanced efficiency.

RETRO-ANALOGUE DASHBOARD

Get all the fun of a retro speedometer with the modern functionality of our Tripper Navigation System and a digital LCD display that lets you track everything from gear position to fuel levels and more.
